

Thursday June 1th

09:00	Welcome	
	Magmatic deposits	
09:20	Keynote: Ore-Forming processes in a Deep-Crustal Ultramafic Conduit System. The Seiland Igneous Province, North Norway	Rune B. Larsen
10:00	Origin of the Fe-Ti-P (+/- REE) mineralizations associated with the 1.8 Ga Raftsund monzosyenite, Vesterålen-Lofoten, Northern Norway	Nolwenn Coint
10:20	Fenites in the Devonian Sokli carbonatite complex and livaara alkaline intrusion, Finland	Laura Lauri
10:40	Coffee Break	
	3D-Modelling	
11:00	Keynote: New 3D/4D-modelling and Virtual Reality techniques in deep mineral exploration	Tobias E. Bauer
11:40	3D structural model of the Kittilä terrane, Northern Finland	Tero Niiranen
12:00	3D modelling and visualising of resource deposits with UAV technology and 3D MOVE.	Iain Henderson
12:20	Lunch	
	Base metals	
13:20	New insights into hydrothermal Zn-Cu mineralization in the West Troms Basement Complex, northern Norway	Hanne-Kristin Paulsen
13:40	Fluid evolution in the VMS Cu-(Zn) deposits at Sulitjelma, Northern Norway	Sabina Strmic Palinkas
14:00	The setting and formation of massive sulphide deposits in the Lower Köli Nappes, Hattfjelldal, Nordland, Norway	Terje Bjekrgård
14:20	Initial characterization of Seafloor Massive Sulfide occurrences	Kurt Aasly
14:40	Metallogeny of North Norway	Jan Sverre Sandstad
15:00	Coffee break and Poster session	
1	Defining areas of mineral deposits and a new classification of mineral deposits according to INSPIRE directive.	Janja Knežević, Agnes M. Raanees, Tom Heldal, Kari A. Aasly, Håvard Gautneb, Jan Egil Wanvik, Bjørn E. Larsen, Harald Elvebakk
2	Graphite deposits in Northern Norway; Geophysical prospecting methods	Bjørn E. Larsen, Jan S. Rønning, Harald Elvebakk, Håvard Gautneb, Frode Ofstad & Janja Knežević

Friday June 2nd

	Gold	
10:00	Keynote: Fennoscandian orogenic gold in the context of supercontinent evolution	Pasi Eilu
10:40	Knowledge-driven Prospectivity Model for Gold Deposits Within Peräpohja Belt, Northern Finland	Tero Niiranen
	Mineral Potential	
11:00	Au-mineralization in the St. Jonsfjorden area, the West Spitsbergen Fold Belt, Svalbard	Juhani Ojala
11:20	Graphite deposits in Northern Norway; A review and latest exploration results	Håvard Gautneb
11:40	Deep weathering and mineral exploration in Norway	Odleiv Olesen
12:00	Lunch
