

The 35<sup>th</sup> Nordic  
Geological Winter  
Meeting

Fifth Circular

---

The Geoscience Society of Iceland

Dear colleagues

The Geoscience Society of Iceland hereby invites you to attend the 35<sup>th</sup> Nordic Geological Winter Meeting. The meeting will take place from the 11<sup>th</sup> to the 13<sup>th</sup> of May 2022 on the campus of the University of Iceland in Reykjavík.

As the meeting will take place in May, we would like to use the opportunity to add additional field excursions to the meeting. We cannot promise a live eruption in May, but we will have a field excursion to the 2021 Fagradalsfjall eruption site on the Reykjanes Peninsula on Tuesday May 10<sup>th</sup>. Two additional three-day field excursions are also planned after the conference on the 14<sup>th</sup> of May; one along the south coast of Iceland, and another one to Borgarfjörður and the Snæfellsnes peninsula. More detailed information can be found on the homepage of the conference ([www.jfi.is](http://www.jfi.is)).

Registration and abstract submission will open on the 15<sup>th</sup> of January. Additional information about the meeting and travel arrangements are available on the homepage ([www.jfi.is](http://www.jfi.is)).

We would also like to inform you that you can propose candidate for the Nordic Geoscientist Award. Deadline for submission is the 15<sup>th</sup> of February. Additional information can be found on the homepage.

We look forward to meet you in person here in Reykjavík in May.

Best regards

Þorsteinn Sæmundsson  
Chairman of the Geoscience Society of Iceland
